MONITORING AND EVALUATION

# Monitoring plan

**DEMONSTRATION / TEMPLATE - NOT ACTUAL PROJECT DATA**

An illustrative monitoring template. Values in the dashboard are synthetic.

## Indicators

Use indicator IDs and the short-display-name mapping to connect the Excel data source to reporting.

## Data collection

Define collection frequency, geographic coverage, denominator and quality checks.

## Quality assurance

Validate source records, missing values, inconsistent units and duplicate submissions.

## Reporting

Populate the Excel template with validated data and import it through the dashboard.
